 7.62 x 54(r) Soviet Sniper Steel  
 7.62 x 54(r) Soviet Sniper Lead

## NIJ Level III "plus"

Our Trauma Plates and Side Plates are produced with a new, extremely hardened, extremely high carbon content, US virgin steel raw material far superior to any other steel. This is a classified material that cannot be exported as a raw material. Armor Advantage is the ONLY company on the planet approved to manufacture and export finished goods with this material.

Far superior to Ceramic protection in that it will stop dozens of rounds without compromise, is similar in weight to ceramics, and will not crack or break upon impacts. There are no limits of time when depending on our products to protect you. We will test the same 25 years from now as we do today. Ceramics must be discarded every 3 to 5 years, whether having been utilized or not.

While we are superior in protection to Ceramics... in most instances we are far lower in cost... protecting your funding as well!

Our patented Composite Process, utilized to produce our Blue Composite Body Armor, provides the best Spall protection available in the world. When our plates are impacted the projectile will not penetrate and instead, fragments into small pieces called Spall. Our patented Composite catches 99.9% of ALL Spall fragments which protects against any secondary injuries!

Our Trauma Plates are WARRIOR CUT which allows full range of motion. Warrior can fire from Left or Right Hand

**TRAUMA PLATES**

ITEM #	2500110	2500111	2500112
Dimensions US	8" x 11"	9" x 11"	10" x 12"
Dimensions Metric	20.3 x 27.9 cm	22.9 x 27.9 cm	25.4 x 30.5 cm
Thickness US	.3125 inch	.3125 inch	.3125 inch
Thickness Metric	.7938 cm	.7938 cm	.7938 cm
Weight US	6.1 lbs.	6.9 lbs.	8.4 lbs.
Weight Metric	2.77 kg	3.13 kg	3.81 kg

**SIDE PLATES**

ITEM #	2500119
Dimensions US	5" x 7"
Dimensions Metric	12.7 x 17.8 cm
Thickness US	.3125 inch
Thickness Metric	.7938 cm
Weight US	2.7 lbs.
Weight Metric	1.22 kg

**ZERO secondary blunt force trauma experienced when wearing our plates upon impact!**
