

Vastly Superior Body Armor...

Brush Metal Copper

NIJ Level IIIA "plus"

Our Trauma Plates and Side Plates are produced with a new, extremely hardened, extremely high carbon content, US virgin steel raw material far superior to any other steel. This is a classified material that cannot be exported as a raw material. Armor Advantage is the ONLY company on the planet approved to manufacture and export finished goods with this material.

Far superior to Ceramic protection in that it will stop dozens of rounds without compromise, is **LESS** in weight to ceramics, and will not crack or break upon impacts. There are no limits of time when depending on our products to protect you. We will test the same 25 years from now as we do today. Ceramics must be discarded every 3 to 5 years, whether having been utilized or not.

While we are superior in protection to Ceramics... in most instances we are far lower in cost... protecting your funding as well!

Our Copper and Black lines, although rated Level IIIA, stop dozens of impacts of the AK47 and AR15 Rifle rounds!

ZERO secondary blunt force trauma experienced when wearing our plates upon impact!

**When lives are on the line...
you NEED the Armor Advantage!
Saving Lives... Protecting Assets!**

**THREATS REJECTED
Multiple Impacts**

- Blunt Force Objects
- Sharp Object Stabbing
- ALL Pistol Rounds
- 7.62 x 39 AK47 Steel
- 7.62 x 39 AK47 Lead
- 5.56 NATO AR15 Green Tip AP

Our Trauma Plates are **WARRIOR CUT** which allows full range of motion. Warrior can fire from Left or Right hand positions without restriction!
