

Vastly Superior Body Armor... the very best on the Planet!

RED COMPOSITE

NIJ Level IV "plus"

Our Trauma Plates and Side Plates are produced with a new, extremely hardened, extremely high carbon content, US virgin steel raw material far superior to any other steel. This is a classified material that cannot be exported as a raw material. Armor Advantage is the ONLY company on the planet approved to manufacture and export finished goods with this material.

Far superior to Ceramic protection in that it will stop dozens of rounds without compromise, is similar in weight to ceramics, and will not crack or break upon impacts. There are no limits of time when depending on our products to protect you. We will test the same 25 years from now as we do today. Ceramics must be discarded every 3 to 5 years, whether having been utilized or not. While we are superior in protection to Ceramics... in most instances we are far lower in cost... protecting your funding as well!

Our patented RED Composite Process provides the best Spall protection available in the world and catches 99.9% of ALL Spall fragments which protects against any secondary injuries!

Our RED process enhances the strength of the plate to where there is **NO EQUAL!** These plates will stop ALL Armor Piercing rounds from the most powerful rifles, (Soviet Sniper, NATO .308, and the NATO Sniper 30.06 Armor Piercing up to **FOUR** rounds!

THREATS REJECTED

Blunt Force Objects
 Sharp Object Stabbing
 ALL Pistol Rounds
 7.62 x 39 AK47 Steel
 7.62 x 39 AK47 Lead
 7.62 x 39 AK47 Armor Piercing
