 5.56 NATO AR15 XM193 Lead  
 7.62 x 51 NATO .308 Rifle Lead

## NIJ Level III "plus"

Our Trauma Plates and Side Plates are produced with a new, extremely hardened, extremely high carbon content, US virgin steel raw material far superior to any other steel. This is a classified material that cannot be exported as a raw material. Armor Advantage is the ONLY company on the planet approved to manufacture and export finished goods with this material.

Far superior to Ceramic protection in that it will stop dozens of rounds without compromise, is similar in weight to ceramics, and will not crack or break upon impacts. There are no limits of time when depending on our products to protect you. We will test the same 25 years from now as we do today. Ceramics must be discarded every 3 to 5 years, whether having been utilized or not. While we are superior in protection to Ceramics... in most instances we are far lower in cost... protecting your funding as well!

Our patented Composite Process, utilized to produce our Yellow Composite Body Armor, provides the best Spall protection available in the world and catches 99.9% of ALL Spall fragments which protects against any secondary injuries!

Our Yellow process enhances the strength of the plate and allows it to stop the 5.56 NATO AR15 XM193 Lead Rounds, NATO .308 Steel Rounds... AND NATO .308 LEAD rounds!

### TRAUMA PLATES

ITEM #	2500113	2500114	2500115
Dimensions US	8" x 11"	9" x 11"	10" x 12"
Dimensions Metric	20.3 x 27.9 cm	22.9 x 27.9 cm	25.4 x 30.5 cm
Thickness US	.5000 inch	.5000 inch	.5000 inch
Thickness Metric	1.2700 cm	1.2700 cm	1.2700 cm
Weight US	6.5 lbs.	7.3 lbs.	8.8 lbs.
Weight Metric	2.95 kg	3.31 kg	3.99 kg

### SIDE PLATES

ITEM #	2500124
Dimensions US	5" x 7"
Dimensions Metric	12.7 x 17.8 cm
Thickness US	.3750 inch
Thickness Metric	.9525 cm
Weight US	2.9 lbs.
Weight Metric	1.32 kg
